### Boost your Immune System Vitamin Enriched

#### Product Information

**AMAIZE® MAGEU** is packed in a net weight of 155g sachet (makes 1litres), 310g sachet (makes 2 litres), and a 620g Tub (makes 4 litres) mageu when mixed with water.

**AMAIZE® MAGEU** is supplied as a powder mix in high quality, air tight and non transparent packaging.

To appreciate the quality of **AMAIZE® MAGEU** it's nutritional value as set out in the nutrition table below should be compared to that of competing products.

**AMAIZE® MAGEU** is not only high in energy but also enriched with various vitamins.

The vitamin mixture was specifically chosen to assist HIV-positive patients in recovering from illnesses and to help them cope with antiretroviral drugs.

These vitamins assist in building the immune system and in distributing energy in the body.

- It does not require refrigeration whilst transported and/or stored - a very important factor, not only for the distributor, but especially for those consumers who do not have proper refrigeration facilities;
- It has a shelf life of at least one year without any deterioration;
- The consumer can mix as much as is required and the rest can be stored;
- If mixed with hot or cold milk it makes a porridge which most young children prefer above their normal porridge.

#### Ingredients:

Maize, sucrose, citric acid, potassium sorbate (preservative), vitamins and artificial flavouring

**AMAIZE® MAGEU** is a product developed by PowerForce Products and is supplied as a powder mix containing all the ingredients necessary to make an appetising, instant, high energy and vitamin enriched mageu once it is mixed with cold water. If mixed with hot water it makes a delicious hot porridge and if mixed with hot or cold milk it makes a porridge which most young children prefer to their normal porridge.
